

StorageSync

Back-Up Software

StorageSync Professional come free with the purchase of any SimpleDrive hard drive.

SimpleTech *StorageSync Professional* Edition

StorageSync Backup Software provides an easy and powerful way to organize and protect your files at home and at the office.

Complete Backup, Restore and Synchronization

Quickly and easily backup an entire PC or only selected files and folders to external hard drives and flash drives.

Media Profiler (Multiple device recognitions)

StorageSync creates a profile for each individual target media and remembers those settings. Every backup is customized according to the selected criteria for the target media.

Auto Launch

When auto-launch is enable StorageSync automatically starts upon insertion of any target media and using, media profiler, automatically backs up according to saved settings.

Strong Compression

Up to 2 to 1 + file compression saves valuable disk space by compressing files into multiple archives for easy access.

Powerful Data Encryption

AES 128 bit, 196 bit or 256 bit key - The strongest password protected data encryption available keeps your backed up data safe anywhere.

File Revision

StorageSync will maintain up to 20 copies of any single file to track document changes over time.

Reports

Comprehensive reports allow users to keep a detailed record of every backup set.

Reminders

Set StorageSync to remind you to backup as often as you need it to. Daily, weekly, monthly (or never if you prefer to do it yourself).
